

SUMMARY MINUTES

NATIONAL CANCER ADVISORY BOARD SUBCOMMITTEE ON ORGAN SITE PROGRAMS

Conference Room 4, A Wing
NIH
Building 31, Bethesda, Maryland

January 31, 1982

The NCAB Subcommittee on National Organ Site Programs was convened at 7:45 p.m. on January 31, 1982, on the NIH Campus in Bethesda, Maryland. A roster of the Subcommittee is attached. Mrs. Lombardi and Dr. Selikoff were absent. The following NCI staff were also present: Drs. Vincent Cairoli, Mary Fink, Peter Greenwald, Eliot Stonehill, and William Straile. Dr. Powers, Chairman of the Subcommittee, opened the meeting by acknowledging receipt of the report of the special review committee which reviewed the Organ Site Program on November 22-25, 1981. It was pointed out that the report had been mailed to the Subcommittee members in the week preceding this meeting and consequently not all members had received the report or had an opportunity to read the report.

The recommendations of the report were read and briefly discussed. In some instances the Committee did not agree with some of the recommendations. Furthermore, it was determined that the Subcommittee required additional information from NCI staff before evaluating the individual recommendations in the report. After some discussion it was moved and seconded that the Subcommittee accept the report, subsequently consider it in detail at a special Subcommittee meeting, and that a report be made to the NCAB at its May meeting. The Subcommittee will meet for this purpose on March 31, April 1 in Bethesda, Maryland.

The meeting was adjourned at 9 p.m.
